

ARNE 8489

Impact resistant glove with exceptional anatomical cut, which meets high requirements for protection against mechanical hazards and absorption of possible impacts in the back of the hand. The glove is intended for police and military operations to maintain public order.

ARNE Short Black 8489

PRODUCT DESCRIPTION

Cuff: Short

Color:  Black

OUTER MATERIAL:

- Goat Leather with hydrophobic treatment

LINING:

- Palm: doubled lining fibreglass/PES/para-aramid and UHMW-PE/Fibreglass knitting
- Back: 100% PES Thermolite®

REINFORCEMENT:

- Back: Soft pre-shaped knuckle protector made of smart foam
- Back: Goatskin leather reinforcement with a PORON® XRDTM shock absorbing filling on the fingers, thumb and cuff
- Palm: Leather reinforcement

ADDITIONAL INFORMATION:

- High strength,
- Anatomical design providing perfect comfort,
- Very good impact resistance/protection,
- Tightening strap with velcro fastener,
- Loop for hanging of the gloves on a snap hook.

CARE & MAINTENANCE

We recommend hand washing at 35°C.

PROCEDURE: Remove coarse dirt after each use. Before washing, fasten the Velcro fasteners and remove the snaps. Use a liquid detergent. Wash on a short programme.

TO MAKE THE GLOVE FIT BETTER: Shape the glove several times after washing and during drying. Do not dry in direct sunlight or heat sources, do not use a tumble dryer. Store the gloves in a dry environment.

RECOMMENDED USE:

- **Holík Washing Gel:** The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly). Always use rubber protective gloves when hand washing.
- **Holík Emulsion:** The Holík emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.
- **Impregnation spray Holík:** A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
