

BLAZE EVO 6511-02 / NEO 6511-07

Protective gloves for firefighters - rescue workers. TPR protector on the back provides excellent impact protection and at the same time its anatomical design brings high sensitivity and comfort to the hand.

PRODUCT DESCRIPTION

UPPER MATERIAL:

- Back: Durable elastic fabric, color Lime Green.
- Palm: Synthetic leather.

REINFORCEMENT:

- Thermoplastic rubber – full protection of the back and dorsal fingers. The softness of TPR combined with the correct anatomical friction brings exceptional flexibility to the gloves. The low profile of the reinforcement does not restrict the user when working with salvage tools.
- Reinforcement of the most exposed areas in the palm – Kevlar®/PA with FR coating and foam padding.
- The reinforcement between the thumb and index finger made of Kevlar®/PA fabric with FR coating covers the side seams, increasing the life of the glove thanks to its high abrasion resistance.
- Anti-slip reinforcements on the fingertips in the palm.

LINING:

- Palm: Para-aramid/PES/fibreglass knitted lining – high cut resistance.

CUFFS:

- Evo – Elastic cuff finished with an elastic band
- Neo – Neoprene cuff with velcro closure.

OTHER INFORMATION:

- High resistance to mechanical risks.
- Breathability, sensitivity, flexibility and high strength.
- Comfortable fit.
- Anatomically articulated reinforcements in the palm.
- The wrist part is tightened with an elastic band.
- Contrast stitching.
- Plastic ring and textile loop for hanging the glove on the carabiner.

CARE & MAINTENANCE

Choose a more ecological short washing program at 40 °C.

**PROCEDURE:**

- Remove coarse dirt after each use.
- Before washing, fasten the Velcro fasteners and remove the snaps.
- Use a liquid detergent. Wash on a short programme.

TO MAKE THE GLOVE FIT BETTER:

- Shape the glove several times after washing and during drying.
- Do not dry in direct sunlight or heat sources, do not use a tumble dryer.
- Store the gloves in a dry environment.

RECOMMENDED USE:**Holík Washing Gel**

The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly).

Holík Emulsion

The Holík emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.

Impregnation spray Holík

A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
