

CORA 8418

Impact-resistant, flame-retardant gloves with an exceptional anatomical cut that meets high demands for protection against mechanical hazards and absorption of potential blows in the dorsal area of the hand. The glove is designed for police and military interventions in ensuring public order (interventions during demonstrations, against rowdies, to prevent conflicts).

PRODUCT DESCRIPTION

CORA Short Black

Cuffs: Short / Long

Color: Black

UPPER MATERIAL:

- **Back:** Elastic knit DuPont™ Nomex®.
- **Palm:** Goatskin leather with hydrophobic treatment.

REINFORCEMENT:

- D3O® protector of the knuckles on the back of the hand.
- System of the special anatomically divided goatskin leather reinforcement with shock-absorbing filling on the back of the glove.
- Goatskin leather reinforcement with a PORON® XRD™ shock absorbing filling on the fingers.

LINING:

- UHMWPE / PES / Fiberglass cut resistant lining in the whole palm including fingers.

OTHER INFORMATION:

- Touch control elements on index finger and thumb of both right and left glove.
- Maximum resistance to mechanical hazards.
- Impact resistance.
- High strength.
- Flexibility.
- Flame retardant material.
- Anatomical comfort fit.
- The glove is finished with a Velcro fastening strap.
- Loop on the cuff for hanging the gloves on a carabiner.

SIZE ASSORTMENT:

- 7 – 8 – 9 – 10 – 11 – 12

CARE & MAINTENANCE

We recommend hand washing at 35°C.

PROCEDURE: Remove coarse dirt after each use. Before washing, fasten the Velcro fasteners and remove the snaps. Use a liquid detergent. Wash on a short programme. **TO MAKE THE GLOVE FIT BETTER:** Shape the glove several times after washing and during drying. Do not dry in direct sunlight or heat sources, do not use a tumble dryer. Store the gloves in a dry environment.

RECOMMENDED USE:

Holík Washing Gel

The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly). Always use rubber protective gloves when hand washing.

Holík Emulsion

The Holík emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.

Impregnation spray Holík

A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
