

HENDI 8512

All-leather waterproof winter gloves with comfortable anatomical shape design and anti-bacterial lining, suitable for daily police/military operations in colder environment.

HENDI 8512 Quick Black

PRODUCT DESCRIPTION

Cuff: Quick

Color:  Black

OUTER MATERIAL:

- Goat Leather with hydrophobic treatment

INNER MATERIALS:

- Insulation: 100% PES
- Membrane: PU
- Lining: PES Thermolite® + X-STATIC®

ADDITIONAL INFORMATION:

- High strength,
- Perfectly comfortable fit
- Anatomical design with overlapped seams on fingers
- Membrane providing waterproofness
- X-Static lining with silver fibre provides antibacterial properties
- Wrist part in the palm tightened with an elastic band.
- Plastic clamp and hook for attaching gloves together

CARE & MAINTENANCE

We recommend hand washing at 35°C.

PROCEDURE: Remove coarse dirt after each use. Before washing, fasten the Velcro fasteners and remove the snaps. Use a liquid detergent. Wash on a short programme.

TO MAKE THE GLOVE FIT BETTER: Shape the glove several times after washing and during drying. Do not dry in direct sunlight or heat sources, do not use a tumble dryer. Store the gloves in a dry environment.

RECOMMENDED USE:

- **Holík Washing Gel:** The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly). Always use rubber protective gloves when hand washing.
- **Holík Emulsion:** The Holík emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.
- **Impregnation spray Holík:** A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
