

IVY 8561

Tactical model of aviator gloves with long cuff. The Ivy model features a unique fingertip cut that enhances sensitivity and allows seamless touchscreen operation. Beyond its high sensitivity and fire-retardant material, the glove also includes enhanced cut resistance in the palm lining, ensuring a wide spectrum of use.

PRODUCT DESCRIPTION

Cuffs: Long
Colors: ■ Black 8561-10 ■ Green 8561-12

UPPER MATERIAL:

- Back and wristband: Meta-Aramid knitted hydrophobic and fire-retardant fabric.
- Palm: Goatskin leather with hydrophobic and fire-retardant treatment.

LINING:

- Fibreglass/Para-Aramid/PES – very good anti-cut properties.

REINFORCEMENT:

- Back: Goatskin leather with hydrophobic and fire-retardant treatment.
- Covers exposed area to wear => longer lifespan of the gloves.

CUFF:

- Long: Extended cuff, allowing the user to fit it well over the jacket sleeve.

OTHER INFORMATION:

- All fingers are compatible with touchscreens, Index fingers, thumb and middle fingers are designed to be touchscreen compatible also on the sides of fingers.
- Elastic in wrist area of the palm ensuring secure fit.
- Fire-retardant.
- Very comfortable cut, flexible and tactile.
- Reinforced material at the cuff end for easier donning.

AVAILABLE SIZES:

- 6 – 12

CARE & MAINTENANCE

We recommend hand washing at 35°C.

PROCEDURE: Remove coarse dirt after each use. Before washing, fasten the Velcro fasteners and remove the snaps. Use a liquid detergent. Wash on a short programme.

TO MAKE THE GLOVE FIT BETTER: Shape the glove several times after washing and during drying. Do not dry in direct sunlight or heat sources, do not use a tumble dryer. Store the gloves in a dry environment.

RECOMMENDED USE:

- **Holík Washing Gel:** The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly). Always use rubber protective gloves when hand washing.
- **Holík Emulsion:** The Holík emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.
- **Impregnation spray Holík:** A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
