

# LESLEY PLUS

Protect hands of the firefighters – rescuers during their work in technical situations as well as in the most demanding conditions. They provide the highest levels of protection according to the standard EN 388 and simultaneously the maximum possible flexibility and sensitivity.

## LESLEY Plus 6510

Lime green

### UPPER MATERIAL:

- Back: Elastic textile, color Lime Green.
- Palm: Synthetic leather.

### REINFORCEMENT:

- Synthetic leather – new flexible finger reinforcement on the back - protection of joints on the back of the hand especially against abrasion and impact.
- Kevlar® PA elastic knit with FR coating and foam filling - protection of the most exposed areas in the palm.
- Kevlar® PA elastic knit with FR coating - protection of the palm of the hand and the area between the thumb and forefinger.
- PVC anti-slip reinforcement on fingertips.
- Anti-slip reinforcements on fingertips in the form of a Holík logo.

### LINING:

- Palm: Knitted lining made of Kevlar® fiber/PES/ fiberglass – high cut resistance.
- The lining is covering the fourchettes of all fingers to provide even better protection against mechanical risk.

### AVAILABLE CUFFS:

- Elastic wristband lined with elastic to stop ingress of dirt.
