Introduction of Holík International

Who we are?

We are a Czech family company with a production of personal protective equipment, which we export worldwide. We have subsidiaries in Germany and in America.

What are we doing?

We focus on the production of gloves, protective boots and medical devices. All these products are created in our development department to best suit the needs of our customers.

Where do we operate?

Our production segments are divided into 4 categories - firefighters, rescue, armed forces and healthcare.

Why choose Holík International?

Protective glove for fire-fighters with membrane

Article number: 8039

EN 659:2003
+A1:2008

EN 388

EN 407

Upper material:

- Grain cowhide leather – specially treated, heat, water and abrasion resistant

Reinforcement:

- Back: Para-Aramid reinforcement with silicone coating and shock-absorbing filling
- Palm: Leather reinforcement

Intermediate layer:

- Aramid non-woven fabric-thermal protection against heat and cold

Membrane:

- Membrane Porelle® FR
- Each pair of gloves is tested on a special machine for membrane integrity

Lining:

- Aramid lining with increased weight
- The lining is securely bonded inside the glove to avoid pulling-out
- The glove is easily put on and out of the dry and wet hand

Cuff:

- Compact cuff

Additional information:

- Reflective elements
- Removable snap hook for hanging gloves on clothing

Standard:

- EN 659:2003+ A1:2008

Size assortment:

- 7-8-9-10-11-12-13
- Note – size 13 is not frequently required, but we can manufacture this size without problem, under customer's request.
