Holík | seamTEX®
MEMBER OF HOLIK GROUP

A family-owned company with over 30 years of experience in developing high-quality protective equipment for emergency responders worldwide. Our product range includes premium gloves, specialized footwear, and now also firefighting suits.

With the integration of the renowned Austrian manufacturer seamTEX® GmbH, we now offer complete protective solutions from a single source. Our products combine proven craftsmanship with state-of-the-art technology and are manufactured exclusively in our own production facilities under strict European quality standards.

Holík International - your reliable partner for comprehensive protection for firefighters, rescue personnel, police, and military personnel.

SOCKS: TWO OPTIONS

Holik Washing Gel

The washing gel is natural based for leather and textile gloves with high washing efficiency. It reduces bacteria, does not pollute the environment and is fully biodegradable (Eco-Friendly).

Holik Emulsion

The Holik emulsion protects against water, oil, dirt and revives the colour. Adding fat to the leather prevents the leather from hardening during drying. The emulsion is intended as a nourishment for leather products. For easy use, you will also find a sponge in the package for easy application.

Impregnation spray Holik

A highly effective impregnating spray for leather and textiles that protects against moisture, water, oil and dirt while maintaining the breathability of the material. Apply the impregnation in a thin layer on dry product and allow to dry for at least 12 hours.
